⚇ RyanDlt

## Skills

○ Object-oriented programming (Java, C++ mainly)

○ Databases (SQL)

○ Web development (Python, Django, Javascript)

## Education

**2023-2024.** **3rd year of Grande École in engineering**
ENSIMAG
Grenoble – France

**2021-2023.** **1st and 2nd year of Grande École in engineering**
ENSIMAG
Grenoble – France

**2019-2021.** **Preparatory classes in mathematics and physics**
Lycée du Parc
Lyon – France

## Hobbies

○ Route climbing
○ Mountain bike
○ Software development

## Work experience

May 2023 – July 2023. **Internship at Lichens** Creation and deployment of a web application that allows measurement files to be used visually and interactively on a map.

## Education

September 2022 – May 2023. **2nd year at ENSIMAG, Mathematical Modeling, Images and Simulation**

○ Object-oriented programming (Java and C++)
○ Operating systems and concurrent programming (C)
○ Artificial Intelligence (Scikit-Learn)
○ Database management systems (Oracle)
○ Introduction to laboratory research (INRIA)

September 2021 – May 2022. **1st year at ENSIMAG**

○ Programming (Python, C)
○ Numerical methods and mathematical analysis.
○ Statistics and probabilities (R)
○ Operational research

September 2019 – June 2021. **Preparatory classes in mathematics and physics** Two-year undergraduate intensive course in order to take the national competitive examination for admission to the French Grandes Écoles.

## Scolar projects

January 2023 **Creating a compiler for a Java sub-language**

May 2022 **Development of a user interface library in C**

## Personnal projects

February 2022 – ... **GPS track editing application** Creation of a website for easy viewing, editing of GPS track files.
